Phase I
Need-Finding
Phase II
Prototyping
Phase III
Evaluation
Our Approach
Domain/Problem Characterization
Preliminary Discussions
Semi-structured Interviews
Contextual Inquiry
Data/Operation Design
Demos & Critiques
Collective Brainstorming
Iterative Prototyping
Grounded Evaluation
Pre-study Survey
Open-ended Exploration
Post-study Interview
Outcome
An Understanding of Workflows: Users, Dataset, Challenges
Zenvisage ++ system & VQS Taxonomy
Sensemaking Model & Behavioral Patterns
