	Phase I Need-Finding	Phase II Prototyping	Phase III Evaluation
Our Approach	Domain/Problem Characterization	Data/Operation Design	Grounded Evaluation
	Preliminary Discussion	Demos & Critiques	Pre-study Survey
	Semi-structured Interviews	Collective Brainstorm (Participatory Design)	Open-ended Exploration
	Contextual Inquiry	Iterative Prototyping	Post-study Interview
Outcome	An Understanding of Workflows: Users, Dataset, Challenges	Zenvisage++ system & VQS Taxonomy	Sensemaking Model & Behavioral Patterns
